## REPORT OF THE REFORESTATION COMMITTEE

To the Warden and Members of the County Council of the County of Norfolk:

Gentlemen:—

We, the Reforestation Committee beg leave to report as follows:

We met at the Forestry Station on April 1st. Accompanied by F. S. Newman, Superintendent of the Forestry Station, the Committee inspected a parcel of property viz.: north 70 acres of Lot 18, Concession 6, South Walsingham, known as the Simes farm. In a former report of February 18th, 1933, this property was recommended as being suitable for purchase as a county forest.

The land in question was looked over in detail, and lends itself for tree planting exceptionally well. Barring the ten acres more or less constituting a wooded gulley, the whole area can be very cheaply furrowed. About seven acres of blow sand would require brushing subsequent to planting, but plenty of brush is available, and this operation would not entail a large outlay.

The Committee recommend the area an attractive buy at \$490.00 or \$7.00 per acre, and strongly urge the council to take definite action in the matter. Negotiations are under way to procure a final price on this land, but should there be any hitch, it is recommended that at least \$500.00 be voted for the immediate purchase of some other suitable property and that planting be carried out this SPRING.

Members of the County Council who were appointed to interview the Minister of Lands and Forests, as to a constructive relief policy were given a very favorable hearing, but the fact was pointed out that the county and the townships must be willing to do their share in providing employment. It was further suggested that the County purchase land for reforestation in order to assist the Forestry Station in disposing of its several millions of trees which may otherwise have to be burned.

All of which is respectfully submitted.

CHAS. STACKHOUSE,  
Chairman.

#### REPORT OF THE REFORESTATION COMMITTEE

To the Warden and Members of the County Council of the County of Norfolk.

Gentlemen:—

We, the Reforestation Committee beg leave to report as follows:

We beg to submit a report of the various activities in connection with tree planting carried out during the recent Spring.

Under the supervision of William Taylor the following work was done.

**Morrison Plantation**—Lot 14, Con. 13, North Walsingham, 2500 Red Pine were planted on an old orchard site from which the apple trees had been removed for the wood obtained therefrom.

**Payne Plantation**—Lot 12, Con. 2, Charlottesville, 2500 White Spruce were used to fill in fail spots and places which were too wet to plant last year.

**Shelburg Plantation**—Lot 20, Con. 8, Charlottesville, 11,000 trees, including 7000 Larch and 4000 Spruce were planted last fall on the property. This Spring the area was looked over, all trees that had heaved were reinstated and in addition 2,800 White Spruce were planted, mostly in spots that had been prepared the year previous.

**Bonnie Heath Farm**—Lot 8, Con. 10, Townsend, 6,500 Red Pine were planted on a new area by Mr. Tudor.

**Simes Plantation**—Lot 18, Con. 6, South Walsingham, this is new property, purchased during the late Spring.

61,200 Red Pine were planted on this Property. About seven acres of blow-sand was bushed subsequent to planting.

A total of 86,500 trees were set out this year by and under the jurisdiction of the County, giving employment to twenty-six men, at a total expenditure of \$239.85. When the extra work of brushing the blow areas, furrowing and lifting trees, prior to planting is considered, a great deal of credit is due to Mr. Taylor for so efficiently and cheaply carrying out his end of the project. The average cost per thousand in connection with this Spring's work amounts to approximately \$3.29.

All of which is respectfully submitted.
